Ant Treatment Preparation sheet Prior to our technician's Arrival:

Please review & complete all the necessary preparations listed below. These steps will ensure that your Technician is able to provide an effective and safe treatment

Preparation Process

General

- ◆ Move all furniture at least 2 feet away from the wall so spray can be applied to baseboard perimeters

Kitchen

And Bathroom

- Clear all counter tops
- No food should be exposed in all areas. Keep garbage and food to a minimum and throw out your garbage daily. Ensure dirty dishes are not left out overnight.
- Access to all plumbing lines under sinks is required; please have all items in cupboard below the sink cleared out.

Pets

- Birds and Pets must be removed from the premises for 4 hours.

Important Reminder You will need to vacate the Area.

- It is necessary for you or your pets to be out of your home during the treatment and to stay out for 4 hours after the treatment.

Upon Re-entry open the windows for 20 minutes to properly ventilate the treated room.

The California Department of Pesticide Regulation (CDPR) and the Structural Pest Control Board (SPCB) enforce state laws and regulations pertaining to pesticide use, sales, licensing, worker protection safety. All companies and workers must meet state regulations to conduct business within the structural pest control board. All chemicals purchased and used in the state of California must be regulated by CDPR and SPCB.

Hoja de preparacion para tratamiento de Hormigas

Processo de Preparacion

- Limpie la cocina y baño a fondo.
- Todos los articulos del baño y cocina tienen que ser removidos de abajo de los lavamanos y arriba de la cubierta.
- Si ay hormigas en el closets remueva toda la ropa y articulos.
- Todo el piso necesita que estar libre de ropa jugetes revistas etc.
- Remueva todos los articulos/muebles pequenos lejos de la pared aproximadamente 2 pies al centro del cuarto,
- Toda persona y mascota necesita salir del hogar durante y despues de 4 horas que el tratamiento lleve acabo.

After the Treatment

The products applied will only be effective if the following steps are taken after your home is serviced:

- DO NOT use other pest control chemicals (powders or sprays) or cleaning products near areas that have been sprayed, as this will decrease or eliminate the effectiveness of the treatments.
- Upon re-entry to your home, do not wash any of the baseboards for a period of at least 2 weeks. The pesticide residual effects lessen by washing.

Después del tratamiento

- NO use otros productos químicos para el control de plagas (polvos o aerosoles) o productos de limpieza cerca de las áreas que han sido rociadas, ya que esto disminuirá o eliminará la efectividad de los tratamientos.
- Al regresar a su hogar, no lave ninguno de los zócalos por un período de al menos 2 semanas. Los efectos residuales de pesticidas disminuyen con el lavado.
